

RUHR-UNIVERSITÄT BOCHUM

## Noise Generators against Power Side-Channel Attacks

HeiChips 2026

Dina Hesse, Mehmet Uluisik, Meinhard Kissich

August 7, 2026

# Power Side-Channel Analysis

# Noiser 1: Ring-Oscillator

# Noiser 2: Glich Amplification

- ✓ Parameters Configurable from FPGA
- ✓ (basic) Pseudo Random Number Generator on Chip
- ✓ Post-Implementation Simulations of the Power Consumption
